Summary

Junior Software Developer with 1.5 years of hands-on experience in .NET, C#, and Azure cloud services. Proven ability to develop scalable backend systems, integrate third-party APIs, and automate cloud workflows. Strong foundation in computer science and Agile methodologies. Actively seeking full-time opportunities in Wrocław or willing to relocate.

Experience

Junior Software Developer

getsix Wrocław Sp. z o.o. – Wrocław

Jul 2023 – Aug 2024

- Developed and deployed backend services for an automated VAT compliance system for e-commerce clients using Azure Functions and .NET 6.
- Integrated third-party APIs (Amazon, BaseLinker) to automate VAT and invoicing workflows, reducing manual operations by 50%.
- Created a currency conversion service using Azure Functions, Logic Apps, and external exchange rate APIs, improving update accuracy and efficiency.
- Built an automated alert and notification system with Azure Logic Apps and SendGrid, ensuring timely delivery of critical events.

DevOps Intern

Kyndryl – Wrocław

Oct 2021 – Feb 2022

- Practiced Linux server administration and Docker containerization for development and testing environments.
- Documented and contributed to internal Agile/Scrum process improvements.
- Participated in CI/CD pipeline testing and automation initiatives using internal tools.
